IMPORTANT DOWNLOAD INSTRUCTIONS

1. Click the download link.
2. In the File Download box, select Save this program to disk.
3. Save the file named "msreaderssetup.exe" to your hard drive.
4. When the download is completed, locate msreaderssetup.exe on your hard drive and double-click the file to begin installation.
Note: If you are running Internet Explorer 5.0 or later, a dialog box will appear when the download is completed, and you will be prompted to begin installation.
5. You'll be prompted to activate your copy of Microsoft Reader. This important step is required to purchase premium eBook titles that have been encrypted for distribution through the activation process.
Note: If you currently have an activated version of Microsoft Reader 1.5 or 1.51 on your laptop or desktop computer, make sure that you use the same Passport or Hotmail account to re-activate the new version after downloading it. (You must use the same account information to open and read the Owner Exclusive content that you have already purchased.)
6. When installation is complete, you may be prompted to restart your PC. After the restart, the installation will continue. We strongly recommend activating your device at time of installation so you can purchase and open the Owner Exclusive premium content you may already have.
